This “Liberty Pole” is one of hundreds erected in America as a symbol of the colonials’ resistance to British tyranny. The poles were often 100’ tall serving as places to meet or post political news. The Sons of Liberty erected the first one on May 21, 1766 in Boston. Historical records indicate these poles existed across America, especially in MA, PA, NJ, NY and GA.

Transgender Laws: Skip Nature or Nurture. Try Neuter or Nuisance as NYC sets LGBT workplace standards. Policy violations net fines from

\$125,000 to \$250,000. The Devil is in the details of this NYC Commission on Human Rights guide for gender norms. Transgender PC pronouns (He/She v Ze/Hir), dress, work station and bathroom codes get set in 'purple.' Socialist Mayor Bill De Blasio comes to terms for bio-equality. Skip the few media reports. Reading the actual 7-page policy is dark comedy. We suggest a 2-drink minimum before you control-click on the link below.
